AMP-D50-V2-LITE – TPA3255 Class-D Amplifier with USB-C Audio

PCB manufactured, not assembled

TPA3255 · KiCad · LTspice

A compact stereo Class-D amplifier with a TPA3255, a USB-C audio input and a separate 24 V supply, designed in KiCad. The design is complete and the bare PCB has been manufactured, but nothing has been assembled or measured yet.

KEY POINTS

- Compact stereo amplifier with USB-C audio input
- Separate 24 V supply on a two-layer PCB
- Heat-sink fit checked and circuit simulated

KEY DATA

TECHNOLOGY

TPA3255 · KiCad · LTspice

PLATFORM

Circuit board, 2 layers

STATUS

PCB manufactured, not assembled
